		Pricing shown would be for Architectural Grade beams, either: Doug Fir or SYP as determined in final design/spec.				
		Beams marked as "EXT" would be pressure treated before staining.				
		Doug Fir beams would be treated with Enviro Safe Plus (see attached information)				
		SYP beams would be treated with MCA or ACQ treatment				
		All beams would be stained with Penofin Verde - Cedar colored stain.				
		All beams would be individually paper wrapped.				
		Prices shown would include cutting to length and holes for hardware as shown on prints - price does not include hardware.				
		All shop drawings to be approved before production would begin.				
		Please allow 8-10 weeks production time for these beams currently.
